Our suppliers support our efforts by providing us with high-performance components of exceptionally high quality.

Produkt Portfolio Beer Dispensing Equipment

The Kegerator is the smallest commercial beer dispensing unit on the market. It comes in a handy all hard-top case with all accessories and is fit for service, instantly. Tap yourself up to 50 glasses of cool, fresh beer per hour, for example in your garden, at parties, on your boat, etc. The Kegerator's handling is that easy, even your guests can tap themselves a beer. Let them enjoy this fun experience, it's absolutely safe since the Kegerator is designed extremely steadfast.

Speaking of design—the very exclusive look makes the Kegerator an eye-catcher, starring at any event. Since it comes in a convenient hard-top case, you can take it with you wherever you want to go.

There are two versions of the Kegerator, with one or two dispensing heads, respectively. The second head allows you to tap two different beverages at the same time.
